

## **CPU105**

# **Description**

The Plus Audio CPU105, part of the CPU series, is an ultra-compact 5-inch coaxial loudspeaker designed for close-range audio applications. Despite its small size, it delivers powerful output and a broad frequency range, ensuring top-tier sound quality with minimal visual impact.

The CPU105 features a two-way passive design with coaxially mounted transducers, offering a 110° axisymmetric dispersion for smooth, consistent tonal response across the entire frequency range. Built from premium Baltic birch plywood, the CPU105's perfectly cubic shape ensures uniform sound reinforcement, regardless of placement.

Thanks to its compact dimensions, versatile mounting options, and customizable finishes, the CPU105 easily integrates into various environments. It's an excellent addition to larger sound systems in venues where subtle and unobtrusive audio is essential, such as theaters, houses of worship, corporate facilities, and studios. Additionally, when paired with a subwoofer, the CPU105 excels as a distributed background music system in bars, restaurants, conference rooms, museums, and other hospitality venues.

#### **Meta Fields**

#### Features:

- Components 5" / 1"
- Dispersion 110° x 110°
- SPLmax 121dB
- Weight 3.2kg

### Specification:

Frequency Response 110Hz ~ 18kHz (±3dB)

 $95Hz \sim 20kHz (-10dB)$ 

Sensitivity (@1w / 1m) 93dB Nominal Impedance  $16\Omega$ Power Rating(AES) 100W

LF Driver 1 x 5" (44mm voice coil) with ferrite magnet

1 x 1" (25mm voice coil) comp driver with

HF Driver neodymium magnet

Dispersion  $110^{\circ} \times 110^{\circ}$ 

Maximum SPL 115dB, 121dB Peak
Dimensions (H x W x D) 160 x 160 x 167 mm

Weight 3.2kg

Connector 2 x Neutrik NL4MP, 2 x 2-point screw terminals

Connection Method 1+1-

Rigging M6 x 3, M10 Pole Mount

Enclosure 9mm Multilayer Birch Plywood

Finish Water-based paint

Grille Steel mesh with acoustic transparent cloth
