

ET118B

Description

The ET118B Subwoofer by Plus Audio is designed to deliver deep, resonant bass, making it an ideal match for the ET110L Top Cabinet in high-performance sound reinforcement systems. Built for demanding audio applications, this subwoofer features an 18-inch driver with a robust 100mm ferrite voice coil, ensuring powerful low-frequency output down to 35Hz (-10dB). With a maximum sound pressure level of 135dB, the ET118B guarantees impactful bass performance that enhances any live event or installation.

Constructed from multilayer birch plywood, the ET118B's enclosure is built to withstand the rigors of professional use. Its black polyurethane paint finish, along with a black steel grille and acoustic foam, provides both durability and a sleek, professional appearance.

The ET118B is designed for versatile deployment. With a weight of 70kg and dimensions of 778 x 527 x 729mm, this subwoofer offers flexible integration into various sound system configurations.

When combined with the ET110L Top Cabinet, the ET118B Subwoofer creates a powerful, full-range audio system that delivers exceptional clarity, depth, and punch, making it perfect for large-scale events and installations.
